### Description:

Aged 15, Jordan Bone got into a car with friends. She would never walk again. Paralyzed from the chest down, her life was changed forever. Becoming depressed and feeling like life wasn't worth living, these weren't the teenage years that Jordan had envisaged. However, slowly but surely, she began to get herself out of the darkness. With a little help from the internet, Jordan started to embrace positive thinking and embarked on a personal journey to get her confidence - and her life - back. Eleven years on from the accident, Jordan creates her own beauty tutorials on YouTube and has a range of successful brand partnerships. She has reclaimed her life and her independence and now wants to share her inspirational story with others and is telling it through different aspects of beauty. This isn't a book about looking good on the surface, this is a story of inner strength, believing in yourself and finding motivation when you feel like all hope is gone.
