Description:

The new Philip's Navigator Britain Easy-Use Format provides over 3000 road names as well as numbers. It also includes a massive selection of 100 indexed town-centre maps, detailed approach maps to 12 major urban areas, plus route-planning maps, a distance table, and a fully comprehensive 43,000-name index. The main road maps are at 1.7 miles to 1 inch (northern Scotland at smaller scales) and are extra clear and detailed, showing even the smallest roads and lanes that are omitted from other atlases. Every roundabout, junction and slip-road is shown in detail on main roads and motorways. In country areas, thousands of individual houses and farms are marked, along with footpaths and tracks. The alpha-numeric grid is based on the National Grid, so that the atlas can be used with GPS systems. In addition, every street in Britain is located on the maps. Over 8000 tourist attractions and places of interest are shown and named on the maps, including national parks, nature reserves, RSPB reserves, TWT reserves, houses and gardens, beaches, marinas, canals, county showgrounds, CCC camping and caravan sites, shopping villages, World Heritage Sites, long-distance footpaths, sporting venues, park and rides, and ferries. The new Philip's Navigator Britain Easy-Use Format features unrivalled town and country detail, and is ideal for planning cycle routes as well as for motoring.
