Summary:

Review Advance praise for *Magnetic City* Davidson, the Pulitzer Prizewinning architecture critic for *New York* magazine, is a resident, student, and passionate lover of New York, and he has done right by a subject that, fittingly, has been essayed many times before. He combines a keen intelligence, experience, observational skills, expertise (especially but not solely architectural), and an elegant writing style to make this beautifully produced book indispensable. Booklist (starred review) In this exquisitely crafted book, Justin Davidson does more than direct our feet to New York's hidden monuments. He explains the structure of the city with a clarity that would be bracing even for a Gotham habitué, but more than that, he finds the meaning in every building and byway. If you already love the city, you will love it more after this book; if you have not yet fallen prey to its charms, these eloquent narratives will seduce you in. It would be glorious to go on the walks Davidson prescribes, but even those who read the book in an armchair a thousand miles away will be swept up by this evocative, pellucid, charming, and exuberant paean to the city that never sleeps. Andrew Solomon, National Book Award-winning author of *Far from the Tree* For those of us who primarily work in the city, we leave home, take the most direct route to our place of employment, and rarely look up or down, just straight ahead. We don't see the environment we live in. *Magnetic City* changed that for me. Now I don't want to go to work. I want to read any chapter in Justin Davidson's absorbing book and get my walking shoes on. Mr. Davidson's exceptional knowledge of our beloved city is inspiring. *Magnetic City* is now my official chaperone. Patti LuPone Justin Davidson has a mind alive to every signal, and his brilliant prose style transmits that electricity in black-and-white type. He is thus born to the task of capturing the chaotic splendor of New York City on the page. Alex Ross, author of *Listen to This* Justin Davidson's beautiful tours of New York City invoke and redouble our love of the metropolis. His observations of landmarks, in-between places, and layered histories, delivered by an amazing kindred-spirit of architecture, make us feel like royal presences in the city. Jerry Saltz, senior art critic, *New York* A fascinating and insightful companion for a walking tour of New York City. I particularly enjoyed the rich interweaving of the contemporary and the historical. A book worthy of the 21st century flaneur! Daniel Libeskind Read more About the Author Justin Davidson is the architecture and classical music critic at *New York* magazine, where he writes about a broad range of urban, civic, and design issues.
