Here's the easiest, safest, most complete way to maximize the performance of your system. The reason is intelligence. 386MAX combines the most advanced suite of integrated memory management tools ever developed. They work together to provide more of the memory you need to run your applications with Windows, networks, fax boards, resident memory utilities, and CD ROM drives. With 386MAX, your system runs faster, runs smoother, and runs more reliably than ever before.
